

# Prem Kumar Tiwari

Bachelor in AI/ML · CSE · Aspiring Web Developer

📍 Garhwa, Jharkhand, India | ✉️ [premtiwari8962@gmail.com](mailto:premtiwari8962@gmail.com) | [in](https://www.linkedin.com/in/prem-tiwari-cs) [prem-tiwari-cs](#) | [github](https://github.com/premtiwari07) [premtiwari07](#)

## Summary

Computer Science student specialising in Artificial Intelligence and Machine Learning at UCET. Passionate about breaking down complex problems and understanding how logic and algorithms power intelligent systems.

- **Core Foundations:** Mastering C programming and Data Structures & Algorithms (DSA) to build strong problem-solving skills.
- **Full-Stack Development:** Actively training to build modern, responsive web applications using HTML, CSS, and JavaScript.
- **Learning Roadmap:** Transitioning into C++ and Python; exploring deep learning models to understand how data and algorithms come together to build smart, real-world solutions.

## Education

|                                                                            |                              |
|----------------------------------------------------------------------------|------------------------------|
| <b>Bachelor in Artificial Intelligence &amp; Machine Learning</b>          | <i>Sept 2025 – June 2029</i> |
| Vinoba Bhawe University (VBU), UCET, Hazaribagh, Jharkhand                 |                              |
| <b>Senior Secondary (Class XII) – Science Stream</b>                       | <i>2025   84%</i>            |
| S.S.J.S. Namdhari College, Nilambar Pitambar University, Garhwa, Jharkhand |                              |
| <b>Primary &amp; Secondary Education (Class X)</b>                         | <i>2023   86%</i>            |
| R K Public School, Garhwa, Jharkhand                                       |                              |

## Skills

- **Programming Languages:** C, Python (learning), C++ (learning), HTML & CSS, JavaScript
- **AI & Machine Learning:** ML Fundamentals, Deep Learning Basics, NumPy, Pandas, Scikit-learn
- **Web Development:** HTML5, CSS3, Responsive Design, Bootstrap, Git & GitHub
- **Core CS:** Data Structures & Algorithms (DSA), Analytical Thinking
- **Tools:** VS Code, Jupyter Notebook, Git

## Projects

|                                                                                                                                                                                                |                                                 |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------|
| <b>Crop Disease Detection Using Deep Learning</b>                                                                                                                                              | <i>Python   Deep Learning   Computer Vision</i> |
| Research-focused project exploring the use of deep learning models for identifying plant diseases from leaf images. Studied data preprocessing, model training, and performance evaluation.    |                                                 |
| <b>Personal Portfolio Website</b>                                                                                                                                                              | <i>HTML   CSS   JavaScript</i>                  |
| Designed and developed a fully responsive, dark-themed portfolio website to showcase skills, projects, and achievements. Features smooth scrolling, mobile hamburger menu, and CSS animations. |                                                 |
